### Scott's Hotrods Firewall Brake Pedal Assembly Installation Tips

Scott's Hotrods Firewall Brake Pedal and Brake & Clutch Pedal Assembly mount in a similar fashion. These are NOT direct-fit stock replacements for ANY vehicle. Some fabrication is required. A qualified individual or shop should install these parts. Brake & Clutch Master Cylinders sold separately.

The Firewall Brake/Clutch Pedal Assembly comes with mounting holes that can be utilized to mount the assembly to your firewall. A piece of plate steel should be added to your firewall for added strength. You can either bolt this assembly to the firewall by using through-bolts or you can weld nuts to the firewall and bolt it up that way.

If you have ANY questions before, during or after installation, please do not hesitate to call us: 865-951-2081 Monday-Friday 8am-5pm Eastern Time.
