Scott's Hotrods Under-Dash Brake Pedal Assembly Installation Tips

Scott's Hotrods Under-Dash Brake Pedal and Under-Dash Brake & Clutch Pedal Assembly mount in a similar fashion. These are NOT direct-fit stock replacements for ANY vehicle. Some fabrication is required. A qualified individual or shop should install these parts. Brake & Clutch Master Cylinders sold separately.

The Under-Dash Assembly comes with mounting holes that can be utilized to mount the assembly to your firewall. A piece of plate steel should be added to your firewall in order to mount this assembly correctly. This will reinforce the firewall for added strength. You can add some tabs to this plate and bolt the Assembly to those mounts.

If you have ANY questions before, during or after installation, please do not hesitate to call us: 865-951-2081 Monday-Friday 8am-5pm Eastern Time.
